

Jeffrey Resto Jr.

New York, NY | (646) 209-3099 | restojeffrey@gmail.com | <https://jeffreesto.github.io>

Profile

Professional with experience in threat detection, incident response, and security risk assessment. Skilled in identifying and mitigating vulnerabilities through simulated attacks, network analysis, and security testing. Strong foundation in compliance frameworks and cross functional collaboration.

Education

John Jay College of Criminal Justice

New York, NY

B.S. in Computer Science & Information Security

Technical Experience

Cybersecurity Projects & Simulations

- Conducted network enumeration and vulnerability scanning on Windows and Linux environments using Nmap, Global Network Inventory, and stealth scans to assess security.
 - Performed port scanning and reconnaissance using netstat and ShieldsUP to identify open services and evaluate TCP/IP exposure risks.
 - Simulated Denial-of-Service (DoS) and SYN Flood attacks, capturing live traffic with Wireshark to analyze resource exhaustion and server response degradation.
 - Executed Cross-Site Scripting (XSS) attack simulations, identifying reflected and stored vulnerabilities and recommending mitigations such as input validation and CSP.
-

Employment

Mount Sinai Hospital – New York, NY

Patient Encounter Associate | December 2022 - Present

- Gather registration and financial information for patient pre-registration and enter the information into the practice management system.
 - Completed verification of demographics, facilitated financial screening, conducted efficient insurance verification, reviewed MSMCs self-pay policy for new and returning patients.
 - Ensured prior approval and other required procedures were met prior to delivery of care, by working collaboratively with other departments.
 - Performed data audits and error remediation, ensuring integrity across sensitive patient records.
 - Provided technical support, troubleshooting access issues, and escalating incidents as needed.
 - Coordinated with clinical and admin teams to improve workflows and documentation.
-

Certifications

- | | |
|-------------------|--------------------------|
| •CompTIA A+ | •Cisco Network Defense |
| •CompTIA Network+ | •Cisco Endpoint Security |
-

Skills

Security Tools & Platforms: Nmap, Burp Suite, Metasploit, Wireshark, Packet Tracer, Vulnerability Scanners, EDR/AV solutions

Programming & Scripting: Python, C++, PERL, SQL, JavaScript, HTML/CSS

Security Concepts: Incident Response, Threat Hunting, Vulnerability Management, Encryption

Soft Skills: Bilingual, Documentation & Reporting, Cross-Team Collaboration, Training Support
